### WHITING BROS., Ellsworth.

Everybody knows that Turkeys will be high this year, and to bring them within reach of Ellsworth tables necessitates careful buying. We have gone direct to the big markets, and by buying a big lot of turkeys will be able to make a satisfactory price. We cannot quote prices yet; but will make one that will leave us a very narrow margin of profit.

### TURKEYS ROOST HIGH.

These turkeys will be of excellent Vermont stock, which we have handled many years, and always with satisfaction to buyers. A better turkey for the price it will not be possible to find in Ellsworth. The wise provider will order early.

EVERYTHING FOR THE  
THANKSGIVING TABLE.

Baptist church here next Sunday, morning and evening, and at Surry in the afternoon.

C. R. Foster is soon to open a branch furniture store and undertaking rooms at Bar Harbor. Mr. Foster is now in Boston on business connected with the new store.

L. W. Jordan, one of the victims of the recent Main street fire, who opened temporarily in the store recently occupied by E. J. Walsh, has leased the ground floor of the Eno building on State street.

Capt. Charles L. Smith, of the schooner Lejok, will lay off one trip for a visit home. The vessel, which is now loading at New York for Jacksonville, Fla., will be turned over to the command of Capt. Norwood, of West Tremont.

C. R. Cirone, who will open a lunch room and restaurant in one of the Franklin street stores of the Manning block, was unable to open up this week on account of delay in arrival of fittings for the place. The opening will take place Saturday, Nov. 25.

A large shark caught in nets by South-west Harbor fishermen, will be placed on exhibition in Ellsworth. The shark is said to weigh 900 pounds. It was bought by Floyd & Haynes, and sold by them to Fred Delano, who will exhibit it. The shark is expected here this afternoon.

A barn at Washington Junction owned by H. B. Phillips was burned Monday noon, with contents, which included fifteen tons of hay, five tons of oats, farming machinery and tools. The loss is estimated at \$500; no insurance. The fire is attributed to children playing with matches.

James I. Frazier, son of James C. Frazier, of this city, sailed from New York Saturday on steamship Philadelphia for Southampton, Eng. In England he will join the American yacht Atlantic, which won the ocean race last summer. Mr. Frazier has been employed as engineer on the steam yacht Seneca for some time.

The Bar Harbor & Union River Power Co. is making good progress on the extension of the water main on the Franklin road, from Ellsworth to Washington Junction. A three-inch pipe is being laid. A crew of about thirty men is now at work on the job, and Supt. Cushman hopes to double this force to push the work before winter sets in.

There will be public Thanksgiving services at the Free Baptist chapel next Sunday afternoon at 3 o'clock, by Good Will Council, Junior Order United American Mechanics. The council will attend in a body. The Daughters of Liberty will be specially invited. Vice-Councillor M. Beckwith, of Good Will Council, will deliver the Thanksgiving address. There will be special music.

Fred L. Kent of Ellsworth, has been appointed superintendent of the Ellsworth hardwood factory. Mr. Kent will look after the business end of the factory and an experienced man will be secured to look after the mechanical end. Mr. Clement, who has superintended the factory the past few months, has gone to Brooklyn, N. Y.

For the remainder of the season the route of the steamer Percy V. will be changed as follows: Steamer will, on trip out from Ellsworth, make all regular landings as at present to West Tremont, thence to Atlantic, and from there to Bass Harbor. Returning will leave Bass Harbor at 6:50 a. m. for Atlantic, West Tremont and all landings to Ellsworth. This change is made in order that the steamer will lie over at Bass Harbor instead of at Atlantic, which does not provide so good a harbor.

Many here will be interested in the marriage of Miss Maude Presby, formerly of this city, to F. Herbert Snow, of Harrisburg, Pa., extended reference to which is made in another column. The bride's many friends in Ellsworth and vicinity heartily congratulate her, and wish her every happiness. James A. Davis, her uncle, at whose charming country place in Lexington, Mass., the ceremony was performed, is an old Ellsworth boy, whose love for the home of his boyhood is intense.

Friends of Joseph Luchini, who left here on Nov. 1 to visit his aged parents in Italy, sympathize with him in the death of his father. Mr. Luchini, senior, died at his home in Italy on Oct. 31, the day before Joe left Ellsworth, but news of his death was not received here until after he had sailed from New York. Only a short time before he left Ellsworth, in speaking of his approaching visit to Italy, Joe said he was making the trip principally to see his father, who was getting old, once more before he died. Mr. Luchini was seventy-five years of age. His wife is living.

The Union shoe factory will run this winter. This was decided at a meeting on Monday, of the Ellsworth men interested, and repairs are now being made on the building. New sills and floors are being laid, and the factory will be put in thorough running order. It is probable that work will begin in the cutting room about the middle of December. The news that the factory would run, coming closely after the announcement that it had been decided not to start it, is especially gratifying to the people of Ellsworth.

A wedding on the Pacific coast and a wedding trip to the Klondike seem far removed from Ellsworth, but is of local interest. The bride was Miss Helen L. Campbell, daughter of Mr. and Mrs. George R. Campbell, formerly of Ellsworth, who left here only a few months ago, and the groom is Asa Mitchell, an Ellsworth boy who struck "pay dirt" in Alaska some years ago, and has valuable mining claims there. The wedding took place at Spokane, Wash., on Saturday evening, Nov. 11, and the bride and groom left immediately for the Klondike where they will spend the winter.

Dr. A. C. Hagerthy, A. W. King and J. T. Giles, the Ellsworth men interested in the East Machias Lumber Co., are considering plans for rebuilding their mill at East Machias, to replace the one burned last summer. Though not yet decided, indications are that the mill will be rebuilt. At a special town meeting in East Machias last week, it was voted to exempt from taxation for five years the mill structure and machinery. The company asked, as an inducement to rebuild its mill, that the town vote to assess taxes for a term of ten years on a valuation not to exceed \$10,000 on all property involved in the business.

At the annual meeting of the Baptist society last Friday evening, officers were elected as follows: Moderator, Rev. P. A. A. Killam; clerk, Mrs. Edgar Strout; treasurer, Everett S. Smith; auditors, C. S. Donnell, E. S. Means, J. G. Leighton; ushers, Austin Maddox, Carl Thurber, Milton Beckwith; prudential committee, J. W. Thurber, E. S. Means, Edgar Strout, Herbert C. Shute, J. G. Leighton; finance committee, Mrs. Peter Pedersen, Mrs. L. C. Beckwith, U. G. Hodgkins, Mrs. J. P. Langley, Mrs. Eugene Morang; pulpit supply, Mrs. Charles H. Curtis, Mrs. James L. Cook, Mrs. Augustus M. Fairbanks, Mrs. Louise Kingsbury, Mrs. Edgar Strout.

The building known as the Cushman boarding house, a short distance above the lower dam on the east side of the river, was damaged by fire yesterday forenoon. The house was occupied by John Clark, who saved all his household furniture, with the assistance of the women of the neighborhood and the crew from the hardwood factory. The chimney of the house burned out earlier in the forenoon, and the fire caught in the attic, breaking out a few hours later. The roof of the house was burned off. The loss, on the house, about \$500, is covered by insurance. The building is owned by E. H. Greely, John A. Peters and Henry W. Cushman, and was bonded to the Bar Harbor & Union River Power Co.

### GREEN LAKE.

The Sunday morning train brought several hunters to Green Lake, and some report a great chase without capturing any of the deer.

Alec White is keeping up his record as a hunter. The past week he brought in a fine deer weighing 225 pounds and sold it to a Bangor man.

Daniel Webster and wife, of Bangor, spent Saturday at their cottage. Mr. Webster is having extensive repairs made along his water front.

All were glad to see Edgar Emery, of Bangor, who arrived at Green Lake Sunday morning. Mr. Emery has had a crew in the woods for the last two months, and expects to put another crew in later.

## CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week  
Beginning Nov. 26.  
By REV. S. H. DOYLE.  
Topic—God's wonderful works.—Ps. xl.  
1-11. (Singing service.)

The wonderful works of God are manifold. On every hand about us in life, David looked into the heavens and was inspired to say, "The heavens declare the glory of God, and the firmament sheweth His handiwork." He looked about him upon the earth and said, "Day unto day uttereth speech, and night unto night sheweth knowledge." And as he contemplated life upon the sea he declared: "They that go down to the sea in ships, that do business in great waters—these see the works of God and His wonders in the deep." "Many, O Lord my God, are Thy wonderful works which Thou hast done, and Thy thoughts which are to us-ward. They cannot be reckoned up in order unto Thee. If I would declare and speak of them they are more than can be numbered."

The works of God are wonderful in every realm of life. They are seen in the creation of the universe, in its preservation and in God's providential care over His people, and especially in the provision He has made for their redemption in Jesus Christ, His Son. He is blind indeed who does not see how wonderful is the work of God in creating and preserving the material universe in which we live. His providential care over His people is just as wonderful. No one can read the history of God's people without being impressed with the wonderfulness of God's works toward them. God has preserved them. In trouble He has heard and answered their prayers. In the hour of trial and danger He has defended them and brought them safely forth, often in the most marvelous ways. And of His works of grace the most wonderful is His redemption of the world through His Son. God's love for the world and the method of its manifestation are, after all, the most wonderful things about Him.

Oh, wondrous love, to bleed and die,  
To bear the cross and shame,  
That guilty sinners such as I  
Might breathe that holy name!

God's wonderful works should deeply impress us. They should impress us with the absolute assurance of His existence. As Napoleon once said to a group of skeptical officers, "Gentlemen, if there be no God, who made the stars?" There is no rational, intelligent explanation of the universe except that found in Gen. i. 1. "In the beginning, God created the heavens and the earth." He is a fool indeed who says in his heart, "There is no God." God's works should call forth our adoration and our praise. We praise the works of men, but what are they compared to the wonderful works of God? What artist ever drew a picture to be compared to the rising or setting sun, the works of God's fingers? Specially should we praise God for His wonderful works when they have been exercised toward us. The psalmist's ascription of praise was inspired by God's wonderful goodness to him. In answer to his prayer God had removed sorrow and put a song into his mouth, and this led him to contemplate and to extol God's wonderful works, and as we come to another Thanksgiving day season and recall the blessings, national, social, domestic and individual, that have come to us from God we should acknowledge His presence in them and exclaim, "Wonderful are Thy works, O God, and Thy thoughts are very deep."

An Exchange of Greetings.  
President Roosevelt's message of greeting to the Baltimore convention was received with a heartiness characteristic of Christian Endeavor. This is what he wired:

Oyster Bay, N. Y., July 4, 1905.  
Rev. Francis E. Clark, D. D., President  
United Society of Christian Endeavor,  
Baltimore, Md.

I am very sorry that it has been found impossible for me to accept your invitation to address the Christian Endeavor convention. But will you permit me to send through you a word of greeting to those assembled and to heartily wish them continued success in the work in which they are engaged. The work of your society during the quarter of a century of its existence has been far reaching in its effect for good. To make better citizens, to lift up the standard of American manhood and womanhood, is to do the greatest service to the country. The stability of this government depends upon the individual character of its citizenship. No more important work can be done—important to the cause of Christianity as well as to our national life and greatness.

THEODORE ROOSEVELT.

A reply was sent by the convention in the following words:

Baltimore, Md., July 5, 1905.

President Theodore Roosevelt, President's Train, Lake Shore Railway, Cleveland, O.  
Thousands of Christian Endeavorers from many lands honor with you the memory of Secretary Hay. We thank you for your inspiring message. We beg you to stop at Baltimore on your way home and let us hear your voice in a plea for the nobler citizenship you exemplify. Any hour, day or night, will do.

WILLIAM SHAW.

A Lonely, Brave Endeavor.  
Rev. G. W. Wright, Presbyterian missionary in the Philippines and a staunch Endeavorer, tells of a lame man in the hospital who heard of a community of people in the mountains who needed a teacher. "Carry me up there," he said, "and I will live among them and preach the gospel." So the lame man was carried up and began his lonely, brave endeavor.

Christian Endeavor.  
Hearts warm as love,  
Hearts true as steel,  
A purpose noble ever;  
For others' good,  
For others' need,  
Unselfish Endeavor.

—John E. Clements in Baltimore News.

## Mutual Benefit Column.

EDITED BY "AUNT MADGE".

Its Motto: "Helpful and Hopeful."

The purposes of this column are succinctly stated in the title and motto—it is for the mutual benefit, and aims to be helpful and hopeful. Being for the common good, it is for the common use—a public servant, a purveyor of information and suggestion, a medium for the interchange of ideas. In this capacity it solicits communications, and its success depends largely on the support given it in this respect. Communications must be signed, but the name of writer will not be printed except by permission. Communications will be subject to approval or rejection by the editor of the column, but none will be rejected without good reason. Address all communications to

## TRY A SMILE

In your journey through the years,  
Use a smile.  
It will weave a hope from fears,  
Will a smile.  
There's a power that somehow brings  
To the heart that ever sings  
All the old world's goodly things—  
It's a smile.

If the clouds o'ercast the sky,  
Use a smile.  
They will vanish by and by,  
With a smile.  
Though the world with woe seems rife  
You can challenge all the strife  
That comes creeping into life,  
With a smile.

If the world seems upside down,  
Use a smile.  
For it won't help things to frown—  
Try a smile.  
There's a hope that stays to bless;  
You can win the sweet caress  
Of the little God Success,  
With a smile.

If you think you missed the mark,  
Use a smile;  
If your life seems in the dark,  
Why, just smile.  
Don't give up in any fight;  
There's a coming day that's bright;  
There's a dawn beyond the night,  
If you smile.

—Harry T. Fee.

Selected by Ann.

Dear Sisters of the M. B. Column:  
As my last letter did not find refuge in the waste basket, I will try and interest the readers again. We have been blessed with delightful weather this fall. Sister R. referred to the hymn, "Oh, That Will Be Glory," that her daughter sent her. Would say that it is one of my "favorites," also "Sometime We'll Understand." The music is pretty and the words are comforting.

I had a short visit from Dell last month, which my husband and I enjoyed; hope she will come soon again. I would have enjoyed being present at the M. B. picnic. Dell told me how much all seemed to enjoy themselves. The cot, tape where the picnic took place is only a short distance from where my husband's parents live, but at the time I was in Portland and it was not convenient for me to be present. I will send recipe for mustard pickles and mock cherry pie.

MUSTARD PICKLES—One quart each of small whole cucumbers, large ones sliced, green tomatoes sliced and small button onions, one large cauliflower divided into florets, and four green peppers cut fine. Make a brine of four quarts of water and one pint of salt; pour it over the mixture of vegetables and let it soak twenty-four hours. Heat just enough to scald it; turn into a colander to drain. Mix one cup of corn-starch or flour, six tablespoonsful of tumeric with enough cold vinegar to make a smooth paste, then add one cup of sugar and sufficient vinegar to make two quarts in all. Boil this mixture until it thickens and is smooth, stirring all the time, then add the vegetables and cook until well heated through.

MOCK CHERRY PIE—One cup of cranberries, 1 cup of hot water, 1 cup sugar and 1 cup of seeded raisins, cooked together until berries are done. Stir in 1 tablespoon flour wet in cold water and add a teaspoon vanilla or nutmeg and a pinch of salt.

L. E. T.

Lynn, Mass., Nov. 12.

Dell told us she was going to visit an M. B. sister, and we are glad to hear from you again; we know you had a good report of the reunion, if Dell made it. Thanks for the recipes. One of my neighbors made mustard pickles, I am quite sure, by that recipe.

Dear Aunt Madge and Sisters of the M. B.:  
Is the latch string always out for delinquents, or is there some penalty for months of silence? I have enjoyed your delightful exchange of ideas, and have longed to greet each one with a cheery word, but a multitude of duties has pressed heavily upon me, and so I have delayed the letter due nearly a year.

Was so sorry to miss again the reunion of the Mutuals, but hope to be there next year if all goes well. The "Comfort One Another" poem in the Nov. 1 column, by Margaret Sanger, did indeed comfort me as I know it must have done each member of the circle. What a good chat Aunt sent us, and I, too, as a great admirer of Aunt Maria and Esther. Susan always sends such cheery letters. Aunt Emma I have long owed a letter, and she is often in my thoughts, hope to get around to her soon.

Dell is a dear old friend of mine and I am glad she could leave the chicks for such a nice trip. Let us obey the wise advice at the head of our corner this week to "Cheer up! cheer up!" and do not fret if things don't come our way! Every word of the sermonette is true. Yours for better service.

JANET.

It was a welcome sight to me when I found one of your letters in my mail last week, and a little singular that I must have been writing that inquiry for you which appeared in the last AMERICAN, about the time you were remembering us with a letter. Janet was like Ego, one of the first to come to the help of the column when it was in its infancy. You know it has a birthday next month.

Several months ago Ernie Stine sent me a clipping on "Sunday Observance" which is most excellent in its application to present day tendencies. Although some of the statements and queries are founded on summer practices, it will not come amiss at any season of the year, and perhaps we have more time now to think over the questions propounded for our consideration. There is a decision in reverence for the day, we all must admit, even though we may not be able to give the cause nor prescribe a remedy.

"The question about Sunday observance is not so much one concerning the positive sin of Sunday fishing and riding and golfing, as it is to whether it is our duty to travel so far away from the paths which our ancestors trod. If we can go fishing on Sunday without committing sin, of what use are the clergymen and churches? Are the apert and costly edifices, which rise from sites of sacrifice made in every Maine village, of no use other than to hold church societies with grab-bags, gaudy cakes and other gambling devices? Is a minister no more than a well-dressed man who shaves

Man's Unreasonableness  
as often as great as woman's. But Thos. E. Alden, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble.

"Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by E. G. MOORE, druggist, price, 50c.

Lydia E. Pinkham

No other female medicine in the world has received such widespread and unqualified endorsement.  
No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has

## Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian Troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Leucorrhoea than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development. Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility quickly yield to it. Womb troubles, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it invigorates the female system, and is as harmless as water.

It quickly removes that Bearing-down Feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, Faintness, sleeplessness, flatulency, melancholy or the "blues" and headache. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures. Kidney Complaints and Backache, of either sex, the Vegetable Compound always cures.

Those women who refuse to accept anything else are rewarded a hundred thousand times for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

every day and who wears a white tie and gloves, and who carries a cane when he walks out on the streets? Is the bible a book that is filled up with exploded heresies that were useful for the guidance of our ancestors, but very much out of date in the light of modern science? Is a church organization no more than a social club, where profane swearing is barred? In short, is there a living God who sways the destinies of men to-day, even as He has in past ages? Members of the Catholic and Jewish denominations think so, and bear evidence of their faith by filling the houses of worship on the days set apart for such purposes. Why, then, are Protestants so lax in their endeavors? What is the meaning of this scant attendance at church on summer Sundays? Is the Protestant religion classified as "perishable goods" that cannot stand the heat of summer?

"Let us face the question fairly. If we see an alderman or a legislator or a public official of any kind shirking his duty, we are not slow to debate the question and administer reproof. Why should we treat the question of church attendance so lightly? Are not the delights and the treasures of the hereafter as important as those of the here and now? The diminishing church attendance, particularly in the summer time, stands as a grave menace to the prosperity of the Protestant cause. The longer this fact is ignored the graver the peril and the greater the responsibility will be."

## W. C. T. U. Column.

The editor invites secretaries of local unions of the W. C. T. U. in Hancock county, and white ribboners generally, to contribute to the column reports of meetings or items that will be of interest to workers in other parts of the county. We would like this to be a live column, but it needs some effort on the part of W. C. T. U. women to make it so. It is a column of their making, not ours, and will be what they make it. Items and communications should be short, and, of course, subject to approval of the editor.

## SOUTHWEST HARBOR.

The Frances E. Willard union held its regular semi-monthly meeting at the library Friday afternoon, Nov. 17. A part of the time was given to reading the memorial tribute to that noble promoted white-ribboner, Cornelia M. Dow, as published in the November number of the Star in the East. The poem found in the desk of this beloved comrade was peculiarly applicable to her sudden transition:

"I cannot say and I will not say  
That she is dead. She is just away  
With a cheery smile and a wave of the hand.  
She has wandered into an unknown land  
And left us dreaming how very fair  
That land must be since she lingers there."

Dr. A. M. Fulton, who walks a mile to be present at the union whenever she is at her cottage, suggested the discussion of important topics—a course of study to awaken a new interest, proposing "Why woman needs the ballot" as the theme for the regular meeting of Dec. 1, with a cordial invitation to all ladies, whether white-ribboners or not, to be present and take part in the discussion. It was so voted.

## BLUEHILL HISTORY.

(Compiled by R. G. F. Candage, Brookline, Mass., for the Bluehill Historical Society.)

The Bluehill Historical society will be glad to receive through its president, Dr. Otis Little, all suggestions, corrections, etc., which will assist in making these papers as complete and as correct as possible.

The mill pond was a favorite place for the boys to swim in. Sometimes a seal would pass into it through the flood gates, and when the gates shut, he would be impounded, to become the target of the sportsmen of the neighborhood, and finally their prey.

In the spring of the year, the flounders, that had wintered in the pond rose from their beds and sought larger liberty outside by passing through the flood gates at near slack water, where many were speared and served up fried at table as a dainty bit of food.

All this is of the past—the mills are gone and all those that had to do with them in those days, the writer, probably, alone excepted. Of late years the pond has been a preserve for lobsters, but even that use has been given up, and although the tide ebbs and flows as of yore, no use is being made of this once valuable water power.

Near the mills was the shipyard of this part of the town, where many vessels were built in former time, and many others were rebuilt or repaired. But that industry, like the sawing of lumber and grinding of grain at the tide mills, has gone, evidently never more to return.

The vessels built in this yard were the schooner Conquest of 100 tons in 1820 by the Sinclairs; the brig Mentus of 176 tons in 1825 by the Sinclairs; the schooner Kleber of 119 tons by Samuel R. Candage, bark Virginia of 284 tons by the Sinclairs; ship Tahmaroo of 372 tons in 1844 by the Sinclairs; bark Sarah Jackson 198 tons, 1846, by John Cheever; brig Delhi of 175 tons, 1848, by John Cheever; brig Equator of 156 tons, 1850, by John Cheever, and others whose data are not at hand.

The bark Virginia, launched July 4, 1833, was the first vessel the writer remembers to have seen glide from her building blocks into the element for which she was intended to do duty in the world's carrying trade. It being a holiday, people in large numbers from far and near gathered to see the launching, among whom were women and children who seated themselves upon the shores near the tide line and received a wetting from the wave that the launching caused. The writer remembers hearing their screams of fright and alarm on the occasion as the wave rose and deluged their clothing but doing no other damage.

The Virginia was moored in the cove, there then being no wharf to place her beside, to receive her spars, be rigged and completed for sea, and a floating bridge was constructed and placed between her and the shore for the workmen's convenience in passing to and from her.

Capt. William Sinclair was fond of shooting, and had built a gunning float, scow form with a board nailed across each end in which he went for wild ducks with his boat dressed in seaweed so as to not frighten the birds. One day the writer and his brother Robert were in the boat, which was anchored with a stone tied to a rope, near the vessel, fishing for flounders tomeds and harbor pollock.

When tired of fishing the writer, by order of his brother tried, to pull up the anchor while standing upon the cross board at the bow with the rope on one side. The stone was heavy for his youthful strength, and while straining and doing his best to pull it up, and it had about reached the surface, the stone slipped from the rope and the writer, relieved from its weight, tumbled backwards head down into the water.

Down he went what seemed to be fathoms, but were only feet; he heard the waters gurgling about his ears, drank a swallow or two of the water, had come to the conclusion he was to be drowned, but even that gave him little concern. He had pretty nearly lost consciousness when he rose to the surface and his brother reached forth his hand and rescued the half-drowned lad.

On another occasion when learning to swim on the shore of the mill pond, he swam across the creek and turned to swim back, when the thought came to him that the water was beyond his depth, when with fright he sank like a stone. The same true brother was at hand to be his rescuer, so that twice in boyhood that brother saved the life of the writer. Strange to say that from the date of the last occurrence mentioned, the writer never had a recurrence of that fright, but could handle himself in water of any depth without fear and as though he were amphibious.

The father of the writer had a boat built which was named Hoozier, and which was rigged with two masts, bowsprit, fore-sail, mainsail, jib, flying jib and two gaff topsails, although only fourteen feet in length. She was a fast sailer, the pride of the family, and envy of others who had no boat. The writer, and his brother Robert made a trip in her to the village in the month of March, and were returning when she ran upon a small rock and capsized instantly.

The boys jumped upon the crown of the rock just large enough to stand on, took hold of the boat, righted and bailed her out with their shoes, and then proceeded homeward. The water was like ice and chilled them to the bone and they would have been drowned but for their forethought and activity. That experience they kept secret for a long time, that it

## Son Lost Mother.

"Consumption runs in our family, and through it I lost my Mother," writes E. B. Reid, of Harmony, Me. "For the past five years, however, on the slightest sign of a Cough or Cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and \$1.00; guaranteed at E. G. MOORE'S drug store. Trial bottle free.

might not worry their parents and stop their use of the boat.

The island upon which Joseph Wood and John Roundy first built their homes was, in the boyhood of the writer, owned by Marble Parker, and after him by his son Augustus. The latter sold it to David Friend and a portion went to a Mr. Sylvester. Mr. Friend sold his part to Brooks Gray, and Sylvester his to Mrs. Ethelbert Nevin, of New York, who built a fine cottage upon it, and at this writing is building another. These have been and are the owners in the past and at the present time.

Passing on from the tide mill road back to the old stage road to and from Sedgwick, there stands just where the former diverges a house built by Robert Clay, brother of Benjamin already spoken of, on land purchased of the writer's father in about 1834. Mr. Clay was a joiner and house carpenter like his brother, a cousin of Samuel R. Candage and a descendant of John Roundy, the first settler, through his father's marriage with Molly Roundy.

He was born May 27, 1788; married Patty Nickerson, of Castine, May 17, 1807; she died March 21, 1854, aged sixty-seven; he May 1852, aged sixty-six. Their children were:

- 1 Caroline, born Jan. 12, 1809.
- 2 Roxanna, born August 9, 1811.
- 3 Elmira, born Sept. 29, 1813.
- 4 William, born March 5, 1816.
- 5 Martha, born Nov. 15, 1818.
- 6 William H., born March 25, 1821; was a sea captain.

7 Mary E., born April 8, 1823; married Marshall Hardin; died July 26, 1859.

8 Barzilla, born Nov. 18, 1825; died Feb. 3, 1832.

9 Eunice, born May 8, 1828; married Rufus Hardin.

Mr. Clay sold his house and lot in the '40s to Samuel R. Candage and removed with his family to the village where he died. The next occupant of this house was Joshua Parker Candage, son of Azor and Chloe Candage, born July 8, 1819; married Melinda B. Stover, Oct. 3, 1844, and here began housekeeping at that time. They were married by Rev. Jotham Sewall at his house, the pastor of the Congregational church, and the writer witnessed the ceremony, the first he ever attended.

Joshua Parker Candage, a cousin and close friend of the writer, had been brought up in the neighborhood, and being the only son in his father's family, naturally sought the companionship of his cousins nearby. He had chosen the life of a sailor, and the seasons of 1845-6 the writer was his trusted first hand of the schooner Edward, of which he was master. The crew of that vessel in 1846, yet living, are Freeman R. McIntyre and the writer.

Capt. Candage gave up the sea a few years later, learned the trade of a ship carpenter, he having from boyhood been fond of mechanical labor, and later became a master builder, constructing several vessels, among which was the bark Oak Ridge in 1859, owned by the late Joseph Westcott, esq.

He removed from the Falls about 1848 to the Shore place north of the old meeting-house site on the Penobscot road, which he purchased and where he continued to reside until his death. He had three sons and several daughters. The family record is not at hand, nor in possession of the writer. His son now living, the other two being deceased, resides in the city of Somerville, Mass.

The next occupant of the Clay house was James Roundy Candage, brother of the writer, who married Mary Perkins Parker, his cousin June 23, 1843, by whom he had children as follows:

- 1 Wildes Parker, born in Portland, Me., July 6, 1844; married and resided in San Francisco, Cal., where he had children and he died.
- 2 Georgianna Augusta, born August 16, 1846; married L. D. Perkins; died on Deer Island, Boston Harbor, where she was a matron, Nov. 2, 1902, and buried in the writer's lot at Brookline, Mass.

3 Sarah Norton, born Sept. 15, 1848; married, has children and resides in Los Angeles, Cal.

4 Sarah Stanley, born March 31, 1851; died in Bushwick, N. Y.

5 Annie Lizzie, born Jan. 2, 1857, married George W. Mason and resides in Boston, Mass., at this writing. James, head of this family, died Dec. 14, 1856, at Fortune Island, Bahamas, and his widow Oct. 1859, at Bushwick, N. Y.

James R. Candage was a sea captain, then a shipping master at New York, and went from that city to Fortune Island to purchase wrecked and other material to be shipped to the United States, and there died suddenly. He removed from Bluehill to New York in 1851 or 1852.

## COLLEGE COURSE FREE.

The Boston Globe's Free Scholarships for New England Boys and Girls.

A college education is the ambition of the great majority of the boys and girls of New England in these days, however unattainable it may seem to many of them. A university or technical training is no longer regarded as the exclusive privilege of the few, but is looked upon as the key to the advancement of the many, their main chance to rise in the world.

A scholarship, at home or abroad, amounting to \$500 a year in cash for four years, or \$2,000, is to be the highest award. There will be three scholarships carrying \$200 a year for four years, or \$1,000 each; four will carry \$150 a year for four years, or \$600 for each; four more will carry \$100 a year, or total of \$400. Among other contestants the Globe will distribute more than \$125 savings bank books, ranging from deposits of \$50 down to \$5.

The Boston Globe, which has so long been the favorite of the young people, always studying their needs and sympathizing with their aspirations, has opened a free competition for all the pupils in all the schools of New England.

The Globe is confident that the distribution of all these free scholarships among its youthful readers will prove a powerful general stimulus toward higher education throughout the schools of New England, and that the more than 125 savings bank books to be distributed among the boys and girls at the close of the contest may become positive incentives to a life of thrift. The pupils are now open, and while only pupils in New England schools may be candidates every one may vote, old or young, regardless of residence.

Read the conditions in the Boston Globe. Vote early! Vote often!

## ELLSWORTH MARKETS.

Eggs Very Scarce, and Thanksgiving Prices Rule.

The retail markets in Ellsworth lack special feature this week. Eggs are playing a leading role. The quotable price is 35 cents, but 38 cents has been touched. There is little possibility of lower prices before Thanksgiving. In Bangor retailers have been getting 45 cents.

Corn is easing off gradually, but no change is made in local retail prices.

The quotations below give the range of retail prices in Ellsworth.

Ten thousand demons gnawing away at one's vitals couldn't be much worse than the tortures of itching piles. Yet there's a cure. Doan's Ointment never fails. -Advt.

The soothing spray of Ely's Liquid Cream Balm, used in an atomizer, is an unspeakable relief to sufferers from Catarrh. Some of them describe it as a Godsend, and no wonder. The thick, foamy discharge is dislodged and the patient breathes freely, perhaps for the first time in weeks. Liquid Cream Balm contains all the healing, purifying elements of the solid form, and it never fails to cure. Sold by all druggists for 75c, including spraying tube, or mailed by Ely Bros., 35 Warren Street, New York.

## A Food to Work On

Work! Work!! Work!!!

Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time.

The man of to-day needs something more than mere food; he needs a food that makes energy—a food to work on.

Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers—and this means **Uneeda Biscuit**—are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour.

That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, the finest soda cracker ever baked. An energy-giving food of surpassing value—sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. *Truly the food to work on.*

Whoever you are—whatever you are—wherever you work—**Uneeda Biscuit**.

## KITTELY TO CARIBOU.

Edward T. Spencer, of Old Town, a well-known lumberman, died last Wednesday, aged sixty-three years.

One of the stores of John Coombs at Damariscotta Mills was burned Tuesday night of last week. Loss \$2,500.

The body of Arthur Folsom was recovered from the mill-pond at North Dexter last Wednesday. Folsom, who had been living alone in a camp, it is supposed was drowned the previous Sunday. His overturned canoe was found on the shore Tuesday, and search was made for him.

The registration of automobiles and motor vehicles, at the office of the secretary of State, which has been in progress since the law went into effect the first of last June, is practically completed for the year. Since the law became operative the number of automobiles which have been registered is 731; the number of persons who have been licensed as operators is 980, and the number of motor cycles which have registered, 96, the result of which has been the turning into the State treasury of \$4,000. The power vehicles seem to be growing in popularity, and it is anticipated that the close of another year will find the number owned in the State largely increased.

A man in Bangor recently loaned a book to a woman who was about to pay a visit to friends in Bridgewater, N. S., and after it had been perused the woman returned it to the owner through the mails, with the proper amount of postage prepaid. When the package arrived at the Bangor postoffice, the collector of customs assessed duty and demanded payment at the rate of 25 per cent. ad valorem, the book being valued at \$1. The duty was paid under protest, and the matter taken before the board of general appraisers. The board has now rendered a decision overruling the protest and affirming the decision of the collector. The fact that the book was owned in the United States and had been "exported" for temporary use only made no difference in the question of liability to duty.

Cobb, Butler & Co., of Rockland, have just closed a contract with Garrett Schenck, president of the Great Northern Paper Co., at Millinocket and Madison, to build a large four-masted schooner of a type, which, if successful, is likely to bring about quite a change in coastwise navigation. The contract calls for a four-masted schooner with three decks and a registered tonnage of about 2,000. She will have a carrying capacity of about 3,000 tons of coal, and in fact is built for that purpose. The point of interest lies, however, in the fact that she is to have auxiliary power—a gasoline motor of 500 horse power. This will be the first large cargo schooner on the Atlantic coast to be thus equipped, and if the plan proves as successful as it has shown itself in vessels on the Pacific coast, it is more than probable that a new and important era in Maine shipbuilding has dawned.

A New Cure for Rheumatism. To all who suffer with Rheumatism I will gladly send the "golden story" of a new home remedy that has cured thousands, together with the most elaborate and exhaustive treatise on Rheumatism ever published.

No matter what your form of Rheumatism may be, acute or chronic, local or general, frequent, rare, prolonged, or short attacks, whether muscular, inflammatory, deformed, sciatic, neuralgia, gout, lumbago, etc.—no matter how many so-called "sure cures" you have tried—no matter how many doctors have failed in your case—no matter how apparently beyond the reach of cure you may seem, write to me and hear my "golden story."

I appeal especially to the "chronically ill," who are wearied and discouraged with "doctoring" and to those who have been cast aside as "incurable." All you have to do is to follow the simple directions I give, and you will be cured. Write me to-day (to-morrow never comes) and learn for yourself the claims I make. Send no money, not even a stamp. ## STATE OF MAINE.

By the Governor.

## A PROCLAMATION.

The President of the United States has designated Thursday, November 30, as a day for public thanksgiving and prayer. This custom originated in New England and has always been observed by the people of this State. Therefore I, William T. Cobb, Governor of the State of Maine, do hereby appoint

Thursday, November Thirtieth, Instant, Thanksgiving Day.

and ask all those whose homes are here, to recognize the true spirit of the custom, and mindful of their obligations to the needy, to manifest their grateful acknowledgement of the blessings of liberty, peace and public prosperity, which under God, have been bestowed upon us all.

Given at the Executive Chamber at Augusta, this 19th day of November, in the year of our Lord one thousand nine hundred and five, and of the Independence of the United States of America the one hundred and thirtieth.

WILLIAM T. COBB.

By the Governor, with the advice and consent of the Council.

BYRON BOND, Secretary of State.

Political interest in the past few days has turned largely toward Mr. Cannon, who, as the next Speaker of the House, will have the making or blocking of a great deal of legislation. Mr. Cannon, after his first visit to the White House, admitted what he would not admit before, the possibility of railway-rate legislation at the coming session. But he has come out in a flat-footed statement against tariff legislation, and there is going to be a hard fight over this.

## CRIMINAL COURT COSTS.

County Treasurer Tapley's Report to the Attorney-General.

County Treasurer O. W. Tapley has made his report to the attorney-general, of the receipts and expenditures in the department of justice in the county for the past year.

The expenditures include the costs of prosecution in the supreme court, costs of grand and traverse juries, support of prisoners in county jail, and the per diem allowance to sheriff and deputies for suppression of the liquor traffic. This last item has only been included the past three years. Salary of sheriff and other regular expenses are not included. The receipts are those from fines only.

The figures are particularly interesting as compared with previous years, especially in the matter of fines received, which for the past year is less than half the average for the previous five years, due to enforcement of the liquor law.

The figures in detail for the past year are as follows: Costs of prosecutions in supreme court, \$2,734.79; support of prisoners, \$761.06; per diem allowance to sheriff and deputies for suppression of liquor traffic, \$1,679.79; paid grand jurors, \$759.47; paid traverse jurors, \$1,915.04; amount received from fines, \$3,383.36.

Following are the figures showing totals of the same items of expense and amount received from fines for the previous five years, and including the past year for comparison:

Year. Expenditures. Fines Rec'd.

1900. \$4,188.25 \$6,199.39

1901. 4,964.74 7,873.68

1902. 3,308.80 7,312.58

1903. 9,371.21 6,652.57

1904. 3,349.25 6,198.90

1905. 7,853.13 3,383.36

The large increase in the amount of expenditures in 1902 was due to the special term for the trial of the Sarah Ware murder case. In the three years following the item for suppression of the liquor traffic, amounting to \$1,384.29 in 1903, \$1,318.04 in 1904 and \$1,679.79 in 1905, is added.

## COUNTY GOSSIP.

Stonington wants a public library. If things continue to boom there as at present, she will soon have it.

Six carloads of Christmas trees for Cleveland, O., is the contract which Roy Bray, of Orland, is filling. The trees are being shipped by rail from Bucksport.

A little three-year-old of West Franklin, whose father is ill, said: "I do not want my papa to take the doctor's medicine. Grammy took doctor's medicine, and she's dead."

A brilliant meteor was seen in the northwestern sky about 8 o'clock Monday evening. As seen at Ellsworth, an unusual feature of the meteor was the length of time which the trail of it remained in the sky. For fully five minutes after the meteor itself had disappeared, a trail of light remained, gradually fading into a dull red and finally disappearing.

The story is going the rounds of the papers of a natural curiosity found in the woods near West Franklin by hunters. A tree was noticed which had a peculiar looking band around its butt a few inches from the ground. This proved to be a glass lantern globe, through which the tree had apparently grown from a tender sprout into a sapling about eight inches in diameter, where it bulged out around the top of the globe. The most curious feature was that the glass remained intact, the natural expansion of growth having had no effect upon it.

We are so accustomed to associate stories of extreme poverty with the tenement house districts of the big cities, that when such cases are brought to light in country towns, and right here in Maine, they seem hard to realize. This is what Miss Juliette Nickerson, State agent for the prevention of cruelty to children, found near Otter Creek: A family of eight children, six under eight years of age, a baby of four months, in a box for a cradle. The main house was 10x12, the shed was 6x8. The large room had a bedstead made of fir poles nailed to the studs, and poles to lie on. With an old mattress the children lay on the floor on rags. The shed contained a stove, two parts of chairs and part of a rocker, and a few old dishes. The shed leaked so badly when it rained that they had to go into the other room. Miss Nickerson came back to the village and went among the business men and got money and bought shingles, nails and boards and stove pipe, and sent them out to the house to be put on, and sent also a box of clothing.

Castine and Hancock county lose a building of historical interest in the old town hall at Castine, which is now being demolished. Our Castine correspondent says:

"This is the result of a vote of the town at its last March meeting instructing the fire engineers to demolish the building and use the material for enlarging the present engine house on Pleasant street. The work removes one more of Castine's old landmarks, and one which has proved of interest to the townspeople as well as the summer population."

"The exact date of its construction is not known, but it is considerably over 100 years old, having been used as a court house, courts being held here as early as June, 1790. The county jail was situated just above the court house, and near it were situated the old stocks built by the town of Penobscot about 1791, and torn down when the jail and court were removed to Ellsworth. The building was remodeled some time in the 70s, but a great deal of the old timbers and lumber remains from the original building. The building was used for town purposes after the removal of the court to Ellsworth, until the building of the present Emerson hall which was presented to the town by Charles Emerson, of Dixton, Me., a former Castine man. The old hall has been used for religious services as well as a town hall, it being used as a place of worship by the second parish church, which is now the Congregational church before its present church was built, and also by the summer population for Episcopal services for a number of years. The removal of this building leaves a lot which would be an ideal site for a building to be used as a town library and museum in which to exhibit the many things of historical interest owned in Castine. Would that some public spirited person would present such a building to the town!"

## CONG. LITTLEFIELD

Not to Leave Maine—What Senator Hale Says of Him.

The persistent rumor that Congressman Littlefield is to leave Maine has caused him no little annoyance. Of course he may sometime. He says he proposes to serve his district to the best of his ability, and to ask for a renomination next year.

Senator Hale, in referring to the report, said to a Washington newspaper man:

"I hope and believe that there is nothing at the bottom of the rumors. I think there is substantially but one feeling about him in Maine. Not only Mr. Littlefield's district, but the whole State, is interested in and proud of his career in the House and his standing there."

"The fact that he does not always agree with every programme there laid down, does not, I think, in the long run weaken him with his associates, and certainly does him no hurt in the State of Maine. Our people respect and admire courage, stability and independence on the part of the men who represent them in Congress. 'Saying nothing of the Senate, the State of Maine has a very strong delegation in the House of Representatives, a delegation that is constantly growing in influence and power, and Mr. Littlefield, at the head of this delegation, cannot now well be spared from public life."

"No doubt he can make money in the practice of law in a large city, but to do this he must give up a career in public life that is full of great promise. I do not believe Mr. Littlefield is going to give this up."

"The girl is the mother of the woman just as the boy is the father of the man. The period when the womanly functions begin is one to be carefully watched and considered. Irregularity or derangement at this time may be promptly met and cured by the use of Dr. Pierce's Favorite Prescription. But neglected at this critical period may entail years of future suffering. 'Favorite Prescription' acts directly upon the womanly organs, giving them perfect vigor and abundant vitality. It moves the obstructions to health and happiness, and delivers womanhood from the cruel bondage of 'female weakness.' Dr. Pierce gives you the book. The People's Common Sense Medical Adviser, 1,008 pages, 700 illustrations, is sent free on receipt of stamps to defray cost of mailing only. Send 21 one-cent stamps for the paper bound book, or 31 stamps for cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y."

## WEDDING BELLS.

PRESBY-SNOW.

One of the prettiest weddings of the season took place on Wednesday, Nov. 15, at 12 o'clock noon at Lindenhurst, the country home of James A. Davis, at Lexington, Mass., when Miss Fredelena Maude Presby was given away by her uncle to F. Herbert Snow, chief engineer of the state of Pennsylvania, Rev. Stephen H. Roblin, second Universalist church, Columbus avenue, Boston, officiating.

The bride wore a magnificent chiffon cloth gown trimmed with lace; her bridal veil was fastened with a wreath of orange blossoms. Her travelling costume was cedar green broadcloth with white trimmings. The bride was attended by her cousin, Miss Muriel G. Davis, and the groom by Mr. Sperry, of New Haven, Conn.

The house was beautifully decorated with palms, pink and white chrysanthemums, and American Beauty roses. Only members and immediate friends of the family were in attendance. The floral decorations were by Stickel, of Lexington.

After the wedding breakfast, which was served by the D. S. McDonald Co., caterers, Boston, the bride and groom left for New York and Philadelphia, thence to Harrisburg, Pa., where they will reside, going at once upon their arrival into a charming new home awaiting them.

The music was furnished by Daggett's full orchestra, of Boston.

The bride had over 200 valuable presents, all of which were very beautiful.

## CLEMENT-M'DONALD.

The marriage of Miss Bertha Frances Clement, daughter of Dexter P. Clement, of Bar Harbor, and George W. McDonald, son of Roderick McDonald, of Ellsworth, took place at St. Joseph's Catholic church, Ellsworth, at 9:30 o'clock Monday forenoon. Rev. J. D. O'Brien officiated.

The bride was attended by Miss Kate McDonald, sister of the groom, as bridesmaid; Herbert Monaghan was best man. The bride's gown was of white silk crepe de chine over silk.

After the ceremony a wedding breakfast was served to relatives and near friends at the home of the bride's sister, Mrs. L. W. Paige, on upper Main street.

The bride and groom left on the noon train for a wedding trip to Boston. On their return they will go to Calais, where Mr. McDonald is employed in the freight office. Mrs. McDonald has for the past six years been employed in the central telephone office at Bar Harbor.

## Correspondence.

The Grindle Family.  
WATERVILLE, ME., NOV. 15.

To the Editor of The American:  
A recent article in the Lewiston Journal relating to the Grindle family, alleged to have been told by Perry Grindle, of North Bluehill, is altogether wrong. Mr. Grindle's great age or the reporter's imagination is no doubt responsible for the mistake.

As a matter of fact and history, the Grindles were quite old settlers in Eastern Maine at the breaking out of the Revolutionary war. The records at Augusta show that there were four of the name who served in the war for independence, viz: Reuben Grindal, Daniel Grindal and Ichabod Grindal, served in Captain William Reed's company called by Col. Jonathan Buck at Machias, from Aug. 19, 1777, to Sept. 28, 1777. Their residences are not given, but there is no doubt but they were residents of Penobscot or Bluehill.

William Grindle, of Penobscot, served in Captain John Lane's company of Col. Foster's regiment at Cape Ann from July 13, 1775, to Nov. 1, 1775, and William Grindle, same company and same place, from Nov. 1, 1775, to Dec. 31, 1775, and William Grindall from Jan. 1, 1776, to Feb. 15, 1776. I presume he was one and the same man, with three different variations of spelling the name.

Nov. 14. F. W. GRINDALL.

## County Suffrage League.

SOUTHWEST HARBOR.

To the Editor of The American:  
In placing Dr. Abby M. Fulton upon the list of honorary members of the National Woman Suffrage league, as was done at the last annual meeting of the American association, a graceful recognition of Dr. Fulton's long and valued services and unswerving devotion to the cause, meets the approval of all the friends of reform in this State to whom she is so well known. That it is gratefully appreciated by Dr. Fulton and her friends, no one can doubt. Her most recent effort in the cause is the organization of the Woman Suffrage league of Hancock county, started last year. A meeting of the league at Ellsworth has been determined upon at an early date, as soon as the president, who is now out of the State, shall be ready to convene the association.

It is to be hoped that there will be an enthusiastic meeting and full attendance.

# SOMETHING NEW!

## Clement's Co-Operative Club Plan of Purchasing

which enables club members to obtain a Piano by paying a small membership fee and eventually to own it, by paying a small sum each week.

We have combined the advantages of collective buying with those of collective selling, together with the desire of the manufacturers to introduce new goods. This plan has been conceived and perfected, as much in the interest of the purchasing public as for our own good, and is founded on the principle that "he who does most for others receives most in return". We have recently visited many of the leading piano manufacturers in New England and have secured the co-operation of these whose names appear in our advertisements. We have endeavored to overcome every obstacle which people of small means and limited income find in purchasing a piano, such as the large prices, usually charged by instalment houses, loss by having piano taken on account of not being able to make payments promptly, etc., all of which will be explained on application either by mail or in person.

ENROLLMENT TO OUR PIANO CO-OPERATIVE CLUB COMMENCES  
**MONDAY, NOV. 20,**  
AND CONTINUES ONE MONTH, or until the limit of membership is reached.

CLUB MEMBERSHIP FEE, \$5. MEMBERSHIP LIMITED TO 50.  
WEEKLY DUES, \$1.

**BACH PIANO. A FIRST-CLASS INSTRUMENT.**  
Usual Price, \$300. Club Price, \$195.  
**STUART PIANO.**

Regular Price, \$250. Club Price, \$175.  
**WEBER, IVERS & POND, MERRILL, POOLE, CROWN, KOHLER & CAMPBELL, HOBERT M. CABLE and others.**  
Club fee and weekly payments varying according to price of piano selected.

We have also a large stock of rent pianos, many of them but little used, and as good as new, which we will put in at the club terms, as long as they last—price ranging from \$150.00 upwards. No old instruments taken in the club sales.

Every piano we sell is fully warranted by the makers and we guarantee the same, and any piano we sell during this sale may be exchanged for any other piano in our stock, at any time within three months, by the customer paying the difference in value, if any.

This is not a lottery or catchpenny scheme, but a straight, square and more than fair business proposition. The piano will be delivered to you as soon as you select it and pay the club fee.

It is impossible in an advertisement of this kind to give every particular in detail or to anticipate every question that may occur to the reader, but we shall be glad to explain every point and give any information desired, by mail or in person, and we invite a thorough investigation.

You should see our stock and get full details to appreciate the advantages of this sale.

Write us for information how to dispose of your old instrument.

## TO BE HUNG.

## MUTINEERS WHO KILLED CAPT. RUMILL TO DIE.

SENTENCE TO BE CARRIED OUT ON FRIDAY, JANUARY 26—STORY OF TRIAL.

The three negro mutineers of the schooner Harry A. Berwind have been sentenced to be hung on Friday, Jan. 26 next. The sentence probably will be carried out at Wilmington, N. C.

The negroes are Henry Scott, Robert Sawyer and Arthur Adams. The men were captured by Capt. Edwin B. Rumill, of Pretty Marsh; John Hall, mate; Smith, engineer; Folby, cook, and John S. Coakley, negro.

## THE TRIAL.

The trial began in the United States court at Wilmington, N. C., on Saturday, Nov. 4. Scott testified against Adams and Sawyer, who were tried jointly. At Scott's trial, which followed, Adams and Sawyer testified against him, saying the plans were made and executed by Scott and not by them.

In the case of Adams and Sawyer, the jury returned a verdict of guilty after a few hours. In Scott's case the verdict came after the jury had been out forty-two hours.

Public sentiment in Wilmington, however, judging by the extended newspaper reports of the trial, seems to favor Adams and Sawyer, surprise being expressed that the jury in their case did not recommend life imprisonment, and that it should take the Scott jury so long to agree on a verdict of guilty.

## SCOTT'S STORY.

The Wilmington Messenger in its extended report of the trial, says: "Henry Scott, who is regarded as the arch conspirator, although according to his own evidence he is guiltless with the exception of killing Coakley, who he claims made an attack on him, is a negro with some education and very sharp. His demeanor on the stand was remarkable. He was perfectly cool, and told a plausible story."

"He told the story of the trouble leading up to the mutiny from the time the Berwind sailed from Philadelphia for Cardenas, Cuba, on July 6, with the same crew on board. Trouble with the food began about three weeks later. From Cardenas the vessel sailed for Mobile, and the ugly feeling among the crew continued to grow."

"At Mobile, Scott said Adams, Sawyer and Coakley bought revolvers, telling him they were going to settle matters with the officers if they had further trouble. Coming up to the story of the tragedy Scott assumed a dramatic pose on the stand and said: 'We are now coming to the big tragedy, and I want you all to hear it.' Continuing he said:

"On Sept. 23, there was a growling as there had been ever since we left Philadelphia. When off Florida—there a storm struck us and carried away our foremast. This was on Friday night, Oct. 6. All hands were called on deck that night to reef sails and put storm trism on the spanker. On Sunday it was noticed that the rudder-head was sprung, and we had to put in a false steering apparatus."

"When we went to supper that night there was nothing to eat. This was Sunday night, Oct. 8. At the time, we were about sixty or seventy miles at sea, and I should judge that we were off Charleston."

"The last time I saw Capt. Rumill was on Monday night at 8 o'clock. A few days morning Sawyer was on the lookout and Adams at the wheel. We came on duty at 4 o'clock to remain."

SHERIFF'S SALE.

STATE OF MAINE, HANCOCK SS.—November 22, 1905.  
TAKEN this twenty second day of November, 1905, on execution dated October 27, 1905, issued on a judgment rendered by the supreme judicial court for the county of Hancock, at a term thereof begun and held on the second Tuesday of October, 1905, to wit, on the 24th day of October, 1905, in favor of The Georgia Trust Company, a corporation located at Ellsworth, Maine, against Genevieve Wyman Birge, formerly Genevieve Wyman, of the city, county and state of New York, for one hundred and fifty-six dollars and seventy-three cents, damages, and twenty-one dollars and sixty cents, costs of suit, and will be sold at public auction, at the office of Deasy & Lyman, in the village of Bar Harbor, of the highest bidder, on the 24th day of December, 1905, at 10:30 o'clock in the forenoon, the following described real estate, and all the right, title and interest which the said Genevieve Wyman Birge has or had in and to the same on the second day of August, 1904, at one hour and ten minutes p. m., the time when the same was attached on the writ in the same suit, to wit:

A certain lot or parcel of land situated in that part of the town of Eden known as Otter Creek and bounded and described as follows, viz.: Beginning at a stake on the west side of the road to Otter Cliff at the northeast corner of the pasture fence, said point of beginning being the southeast corner of the lot herein described; thence south eighty-nine degrees west three hundred and eighty-eight feet to a corner of the fence; thence north eighteen degrees forty-five minutes east eight hundred and sixty-eight and five-tenths feet to a stone on the south side of the highway sixteen feet southerly from the center of the wretched road; thence along the south side of said highway south seventy-seven degrees fifty minutes east one hundred and seventy-eight feet to the west side of the above mentioned road to Otter Cliff; thence following the west side of said road in a southerly direction to the place of beginning, containing five and six-tenths acres, more or less, together with the buildings thereon.

BLOOMFIELD HIGGINS, Deputy Sheriff.

until 8. I and Coakley came on deck. I went on lookout and Coakley went to the wheel. About 4:30 I went to the cook to get the coffee pot. When I went there Hall, the mate, was sitting there drinking coffee and the steward was in the galley. I took the coffee pot and went into the forecastle. Adams and Sawyer were there.

"I went aft to relieve Coakley at the wheel, and he said he was going forward to 'give the cook hell'. In a few minutes I saw Coakley come back and he and the steward had some words. Then he grabbed the steward. I saw Hall the mate coming, and Coakley turned the cook loose, grabbed Hall and shot him three times.

"Sawyer ran up and grabbed the steward. I ran to the starboard side, and Coakley was throwing the mate overboard. Sawyer fired two shots at the steward. During this time, Adams was wrestling with the engineer. When Coakley and Sawyer had thrown the mate and cook overboard, they came to Adams' assistance, and each of them fired once at the engineer. Then they threw him overboard."

"I found a pistol on the cabin and put it in my belt. The three went forward, and I did not see them until about half an hour later, when Sawyer came back to the wheel to relieve me. When he relieved me I said: 'I am going into the cabin to put the lights out.' I wanted to see if the captain was there, as I had not seen him. He was not in the cabin, and I looked around to see if there was any blood, but did not see any. Everything was badly torn up."

Scott then told of the running of the vessel during the day. The mutineers, he said, suggested setting the long boat adrift, to give weight to an invented story that the crew had taken to the boat, which had capsized, all being drowned except the four who would say they swam back to the vessel.

After supper that night, Scott said, when he opposed the plan, the other three men bound him with chains. He succeeded in getting one arm free, and "when Coakley came back and saw me trying to get free, he struck me with a club and shot at me. Then I pulled out the pistol I had found and shot him. Adams and Sawyer tied me again."

Scott then told of the sighting of the schooner Blanche H. King, which put a crew aboard and sailed the Berwind into Southport, N. C. Capt. Taylor, of the King, and the men from that vessel who first boarded the Berwind, testified as to the conditions they found, substantially as told in the story of the mutiny as printed in THE AMERICAN at the time. Scott was found bound, and the body of Coakley was found on deck.

## STORY OF ADAMS AND SAWYER.

Adams comes from the British West Indies. He is a bright mulatto, with a face in no way suggestive of a criminal. He said there was no serious trouble on board until Oct. 10, although he told of a time earlier in the voyage when another member of the crew told him Scott had struck the captain.

His story of the day of the mutiny was that after Coakley and Scott had gone on duty, he and Sawyer had gone to bed. The captain was then talking with the engineer in the engine room. Continuing, Adams said:

"About 5 o'clock Coakley came to the forecastle and woke us up, saying there had been shooting aft. Soon afterward Scott appeared, and ordered us to stay in the forecastle or he would kill us. He came back again soon, and ordered us to make sail. He said he did not want us to have anything to do with the affair; that he was going to kill all the white men aboard, then take the boat and go ashore."

"I saw the engineer on the weather side opposite the spanker rigging. He was covered with blood, and was leaning over the rail. Scott was walking back and forth on the house with a pistol in his hand. I heard Scott tell the engineer he must jump overboard; then I heard a shot and a splash and the engineer cry out astern."

"Next I heard the mate and Scott, and it seemed as if Scott was trying to put him overboard. He was pleading for mercy. Sawyer said he was going to him, and I said I was afraid to go. Sawyer started and Scott drove him back with the pistol. The mate begged Sawyer to help him. Scott fired two shots into the mate and threw him overboard."

"A little while after this I heard more shooting, sounding as if below deck, and after a while I saw Scott bring the cook out of the galley and throw him overboard."

"Scott then took command, ordering us about with the pistol. He planned the scheme to set the boat adrift, to give strength to the story that it had been capsized with all the crew, and the four had reached the vessel."

"We thought best to tie Scott if we could get hold of him. While I was at supper I heard some one call out, and when I went forward Coakley and Sawyer had Scott down. We tied him with a chain. Soon afterward we saw a light, and Sawyer and I went into the rigging. When I was nearly down, I heard another shot, and when I got down, found that Scott had got one arm free and shot Coakley."

"The light we had first seen was that of a steamer, which did not come to us though we set a signal. Soon we saw another vessel, and she came to us."

Sawyer, who is a native of Providence, West Indies, is a typical negro. He told a complete and reasonable story; he told of trouble between the captain and Scott earlier in the voyage, when the captain accused Scott of causing all the trouble aboard, and Scott said: "I have never seen a Nova Scotian that was any good," referring to the captain. Sawyer's story of the day of the murder corroborated that of Adams.

## COMMENT ON VERDICT.

Commenting on the verdict of guilty returned in the case of Sawyer and Adams, the Wilmington Messenger says:

"The verdict caused considerable surprise. There were few who thought the men would be found not guilty, but it was the opinion of a large number of those who heard all the evidence that a verdict would be returned recommending life imprisonment. If a jury should return a verdict recommending life imprisonment in Scott's case, it would cause the greatest surprise, for he is regarded as the arch conspirator, and a dead incarnate. He admitted his guilt some weeks ago, but later went back to his old story that he had killed only one man, Coakley, and that in self-defense."

In a later issue the same paper says:

"Each day the public becomes more and more doubtful of the guilt of Adams and Sawyer, and the great majority of those who are heard to speak of the case say they should not be hanged. The more familiar the public becomes with the case the stronger grows this belief. A petition to commute the sentence of Adams and Sawyer to life imprisonment would be largely signed by those who are most familiar with the evidence. Several court officials, who heard all the evidence, express the most serious doubt as to Adams and Sawyer being guilty."

In its issue of Saturday, Nov. 18, the Messenger says: "The fate of Scott is settled, but for Adams and Sawyer there is still some hope of a new trial."

## FROM BAR HARBOR.

## Bridge and Sewer Contracts Awarded—Bowling Tournament.

Herbert L. Cleaves, M. P. Cleaves and Dr. Alonzo Cleaves returned from Steuben Monday where they went to attend a service which was held Sunday afternoon in memory of their brother, Eugene D. Cleaves, who died Nov. 6, at Magnolia, Col. The deceased was forty-eight years old, and had been engaged in mining in Colorado fifteen years.

The host of friends of W. H. Davis, who has been so seriously ill, will be glad to learn that he is holding his own. He is still a very sick man, but if no complications set in, he is likely to get about again, though recovery will probably be slow.

B. E. Whitney, who has been in the grocery business on Cottage street for several years, left recently for Canon City, Col., where he is interested in mining. Mr. Whitney will spend the winter in the West. A short time before his departure he sold his business to Rufus Foss, who had been employed by him as clerk for some time.

Among the Bar Harbor people who attended the football game at Brunswick Saturday between Maine and Bowdoin were Mr. and Mrs. A. S. Newman and their son, William Newman, B. E. Clark, Ralph Kingsley, James Emery and Frank Richards.

Several members of Porcupine lodge, K. of P. attended the Pythian jubilee at Bangor Thursday, among them being A. L. Morgan, Moses Weiler, M. C. Morrison, Samuel Kurson, B. E. Clark, Charles Bulger.

Mrs. L. Sherman Cleaves has gone to Washington, D. C., where she will spend the winter with her husband, Dr. Cleaves.

## BOWLING TOURNAMENT.

The bowling tournament which will be held during the winter in the alleys of the Y. M. C. A., began Monday evening with a match between the Masons first team and the Foresters second team, and resulted in a win for the former. All the fraternal organizations in town have teams entered, and there is considerable interest in the tournament.

The schedule of games for the next week is as follows:

- Nov. 22. K. P. 1st vs. Redmen 1st.
- 23. Masons 2d vs. Foresters 1st.
- 24. Odd Fellows 2d vs. K. P. 2d.
- 25. Masons 1st vs. Foresters 1st.
- 26. Odd Fellows 1st vs. Foresters 2d.
- 27. K. P. 2d vs. Redmen 1st.

## BRIDGE AND SEWER CONTRACTS.

The contract for the construction of the new bridge on West street, which was authorized by the special town meeting recently, has been let to Messrs. Tripp, Ryder and Dooliver, who were the lowest of seven bidders for the work. Road Commissioner Leland will do the excavating, and the contract for the filling will be let to the lowest bidder as soon as the walls are far enough along to receive the material.

The bridge will be built of stone. Two walls will be laid up, one on the north side of the street and one on the south, and the space between will be filled in with rock and earth. The north wall will be 56 feet long and the south wall 118 feet, the height of the walls being 16 feet and the average thickness 4 feet.

A stone culvert 4x4 feet, will be built at the bottom of the bridge. About 400 perch of stone will be required for the walls and culvert, while 1,000 yards of filling material will be used. The estimated cost of the bridge is \$4,000. The work has begun and will be pushed rapidly.

The contracts for building the three sewers which were voted for at the special town meeting were awarded to Fred Small and Reginald Ingalls. These sewers were one on Glen Mary road and Cedar Lane, cost estimated at \$1,600, one on West and Eden streets, cost estimated at \$1,500, and one from Cottage to West street, cost estimated at \$475.

## Arrested for Murder.

Mrs. Isaac Barnes, of Presque Isle, has been arrested on the charge of murder in putting strychnine in epsom salts, thereby causing the death of Pearl Barnes, her little stepdaughter. The child's death occurred on Oct. 29.

The authorities express the opinion that Mrs. Barnes did not intend that the child should take the poison, alleging that she mixed it with the medicine in the belief that it would be taken by her husband, from whom she had been separated for some time.

## Dr. A. C. Hamlin Dead.

Dr. Augustus Choate Hamlin, one of Bangor's most distinguished citizens, died Saturday, aged seventy-six years. He was born in Columbia, his father, Elijah L. Hamlin, being a brother of Vice-President Hannibal Hamlin.

He graduated from Bowdoin in 1851, and from Harvard medical school in 1855. After two years' study in Europe, he returned to Bangor in 1857, and the same year married Helen A. Cutting, daughter of Judge Cutting of the Maine supreme court.

He served with distinction in the Civil war, entering as assistant surgeon in the second Maine volunteer infantry, was promoted successively to the offices of brigade surgeon, chief of the medical staff of the advance guard, medical inspector of the Eleventh army corps, lieutenant colonel, medical inspector of the hospitals at Washington, medical inspector of the Army of the South and later of the Southwest. He served in all four years and seven months.

After returning to Bangor and resuming practice, he was chosen to other distinguished positions. He had been mayor of Bangor two years, department commander of the Maine G. A. R. and chairman of the pension committee of the National G. A. R., surgeon-general of Maine.

He had also won wide recognition as a writer of medical and scientific works and fiction. He also wrote extensively upon minerals and was an authority of international reputation on tourmalines. There was a large and distinguished gathering at the funeral services in Bangor yesterday. The pall-bearers were: Hon. Charles S. Hamlin; Edwin Hamlin and George Hamlin, of Boston; Hon. Hannibal E. Hamlin, of Ellsworth; Charles E. Hamlin, Addison Hamlin, Edward Stetson, esq., and Hon. I. K. Stetson, of Bangor.

## PROSPECT HARBOR.

Hiram Dolliver has gone to Swan's Island for a few days.

The sardine season has ended. W. P. Hewins returned to Boston Friday.

Donald Handy, of Marblehead, Mass., arrived Thursday for the winter.

Mrs. Charles Blaine, Jr., spent a day or two in Bar Harbor the last of the week.

Miss Genevieve Cole has been spending the week with Miss Julia Guptill, of Gouldsboro.

Dr. C. C. Larrabee, E. F. Ray and A. D. Joy attended the K. of P. convention in Bangor Thursday.

Mrs. N. T. Morse and her mother, Mrs. J. W. Cole, left Friday for Nashua, N. H., to visit relatives for a few weeks.

Miss Bessie Crowley has returned to her home in Corea for a brief visit before leaving for Portsmouth, N. H., where she will spend the winter with her sister.

R. W. Nutter and wife, who have spent the summer here, have returned to their home in Brooklin. Their little granddaughter, Miss Georgia Blaine, accompanied them.

L. B. Deasy and wife, of Bar Harbor, and Mrs. John Shepherd and daughter, of Rumford Falls, were called here this week by the death of their step-mother, Mrs. Daniel Deasy.

## JULIA MOORE DEASY.

The funeral of Julia, wife of Capt. Daniel Deasy, was held Thursday at the Deasy residence. The beautiful floral offerings and the well-filled house, notwithstanding the rain, spoke volumes of the esteem in which the deceased was held.

Mrs. Deasy was in the strongest sense a home-keeper. Of her can be said "she loathed well to the ways of her household, and eateth not the bread of idleness." Rev. Mr. Mayo spoke of the noble character of the deceased, but said eulogies were unnecessary in the presence of those who had known her. In her domestic character as wife and mother nothing more could be asked; while the beauty of the family life, the gracious hospitality and many kindly deeds were known to many of us who will ever hold her in grateful remembrance.

A husband, a son by a former marriage, and an aged sister, who has shared her home for many years, have the sympathy of many friends. The pallbearers were E. W. Cleaves, J. M. Williams, Alfred Hamilton and J. S. Coombs.

**"SAVED MY LIFE"**

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that it is a picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Plum Jam.

For every 6 pounds of plums after they have been stoned use 6 pounds of sugar and 1 quart of water. Put sugar and water in the kettle and boil until it looks clear, say five minutes, then add the plums and boil for three quarters of an hour, then pour into jars or tumblers. This makes a good firm clear jam.

Beets in Butter Sauce.

Cook small beets in boiling water until the skins will slip off readily. Slice and cover with a sauce made from 4 tablespoonfuls of vinegar heated, with 3 level tablespoonfuls of butter, a half teaspoonful of salt and a few dashes of pepper.

Silence is the perfectest herald of joy; I were but little happy if I could say how much.—Ibid.

A Macon girl is just back from the country. While there she asked a farmer "Why don't you milk that cow?" pointing to one in adjoining lot. "Because it is dry, Miss." "Dry?" "Yes, Miss. She's been dry for two weeks." "You cruel wretch!" she exclaimed. "Why don't you give her some water?" and the man turned his face toward the cow house and shook with emotions he could not suppress.

## OBITUARY.

The funeral service of Mrs. Lula Lunt was held at her home at Beech Cliffs on Wednesday of last week, the Rev. Horace Leavitt, of this place, officiating. The service was made very impressive and his words were most comforting to the bereaved family, particularly to the husband and little daughter, whose loss is greatest.

Mrs. Lunt had been in poor health for several years. A few months ago she went through an operation at the Maine general hospital, Portland. Since her return her health has apparently been improving, until three weeks ago, when she was taken violently ill with brain fever. Everything was done that human knowledge could devise, but the Master called her home.

Mrs. Lunt was an unusually attractive person possessing many qualities that go to make a true woman. The thought of the community is expressed in these words:

"None named her but to love her. None named her but to praise her."

## Keith's Theatre, Boston.

Bert Coote, of whom it has been said that he is "the composite of all that is good in American comedians", is to be the headline feature at Keith's the week of Nov. 27.

An event which has caused unusual comment in musical circles is the announcement of the engagement of Edward Molenhauer, the founder of the first conservatory of music in America, and the only violinist appearing before the public at the age of eight years.

The surrounding show includes R. J. Jose, contra-tenor; Spissell Brothers and Mack, eccentric comedy acrobats; Asra, who gives a wonderful exhibition on the billiard table; Nat LeRoy and Minnie Woodford, conversational comedians; Belle Hathaway, and her trained monkeys and baboons; Sid Baxter, aerial cyclist; Bertina and Brockway, singers and dancers; and Leo Carillo, mime comedian.

The kinetograph will show the usual new list of comedy and interesting motion pictures.

Humility must be reinforced by faith and courage or it is not only vain, but disastrous. If anything could be more tragic than pride, it is mistaken humility. The proud man injures himself; the victim of an exaggerated humility injures the world, by depriving it of the service he is fitted to offer.—John E. McFadyen.

A Philadelphia man was praising the late Mrs. Mary Mapes Dodge. "Wise woman as she was," he said, "Mrs. Dodge never refused a beggar; and defending herself one day, she narrated a conversation that she once overheard between two Maryland tramps as they lay under a tree on a superb afternoon. 'Bill,' said the first, 'why is it that poor people is always willin' to help us, while rich folks always turn us down?' The other with a mirthful laugh, replied: 'Them that don't mind givin' things away are the ones that stay poor.'

## A FAMILY REMEDY.

Pe-ru-na Used in Thousands of Homes.

Ex-Governor Isaac Sharp.

ISAAC SHARP, ex-Governor of Kansas, in a letter from 1227 I St., N. E., Washington, D. C., writes:

"I can earnestly recommend your Peruna as an excellent tonic. Its reputation as a cure for catarrh is firmly established by my friends, who have been benefited by its use, and the public should know its great curative qualities."—Isaac Sharp.

Mr. James Currie, a prominent merchant of Montreal, Can., writes from 1806 Notre Dame St., as follows:

"I have used your Peruna for catarrh and find it an excellent remedy for coughs and colds."—James Currie.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O. All correspondence held confidential.

## WEST ELLSWORTH.

Burt Young, of South Surry, visited friends here last week.

Miss Gracie A. Carter, who has been ill for the past ten weeks, is able to sit up.

Mrs. Margaret Kemp and Miss Lottie Floyd have joined Arbutus grange at Surry.

Mrs. Ann Davis and adopted son Raymond left Friday for Corinna, where she has rented a cottage and will go to house-keeping.

Burt T. Carter entertained a party of his young friends Friday evening at the home of his uncle, Judson G. Barron, at Valley Farm.

Burt T. Carter, who has been visiting his sisters, Misses Gracie and Lura Carter, at the home of their grandparents, left the first of the week for Bangor.

The school in district No. 10, taught by Miss Gertrude Seeds, will continue without any vacation during the pleasant weather, and close when the weather and traveling get bad.

The young people of West Ellsworth and Dillardtown serenaded the seventeen-year-old bridegroom, George W. Higgins, and wife, one night last week. They were invited in and hospitably entertained.

No one is useless in this world who lightens the burdens of it for any one else.—Dickens.

A Good Record for "L. F.'s."

March 23, 1904.

Dear Sirs:—

I have used your "L. F." Bitters for a number of years and find them just what they are recommended to be. The best family medicine we have ever used. Also have an uncle over (70) seventy years of age, who says: "There is nothing that ever could take its place for him."

Respectfully,  
MRS. C. S. MOODY,  
Skowhegan, Me.  
R. F. D. No. 7.

To keep well, beyond the usual active time of life, is a blessing. But it is easily done if you use the True "L. F." Atwood's Bitters.

## ANNOUNCEMENT.

Having contracted with one of the most successful firms of Real Estate Brokers and Promoters in this country (a firm having a clientele of thousands from almost every state in the union, and to whose untiring efforts the State of Maine owes two of its most important industries) to establish an agency for this State with headquarters for the present at Ellsworth, I feel that we can sell your Real Estate or Business for cash at a fair price, and that we can find a buyer for your property in less time than anyone else.

It makes no difference whether your property is worth \$200 or \$200,000, or in what part of Maine it is situated. If you want to sell, send me description and lowest cash price. If you want to buy, write me the amount you wish to invest, and state what you want. No charge unless purchase or sale is made.

I have cash customers for two wood lots within short distance (four miles) of Ellsworth postoffice, and for small house \$750 to \$1,000.

We can furnish experts to explore timber lands at low rates, and furnish abstracts of title to real estate in any county in Maine.

G. B. STUART, Ellsworth, Me.
